Rotation Start Date

Rotation End Date

Faculty Advisor

Project Goals: Briefly outline the goals of this laboratory rotation below (use a 2nd page if necessary).

- Describe specific experiments to be performed.
- Summarize academic goals - such as gaining familiarity with a specific literature.
- Describe opportunities for presenting (e.g. lab meeting presentations or similar).

Signature of Student

PART II:

FACULTY AND STUDENT TO INITIAL EITHER #1 or #2

1. I am allowing this student to rotate in my laboratory. However, the student
   and I have agreed that this rotation is NOT intended to lead to subsequent
   Ph.D. research training in my group.

   Student: ______________________
   Advisor: ______________________

2. I am allowing this student to rotate in my laboratory with the
   understanding that he/she may seek to carry out Ph.D. research training
   with me. I am aware that there are funding obligations associated with
   accepting this student to train in my group, and acknowledge my
   responsibility for working with the student and program head to ensure
   funding is available for the student in future years. (Please be sure to clarify
   any uncertainties with the Program Head before signing).
